Take Action in Japanese!

## 私のアイデンティティ Our Identity

What is our identity? How is identity influenced by culture and nationality? Your task is to write a podcast on the topic of "Identity." In your podcast, you will share what you learned about the struggles with identity for racially mixed people living in Japan. Then, you will share your own story to highlight any common ground between you and those people. Reflect on your own identity by including the events in your life that have shaped who you are, and how you identify yourself today. Lastly, propose what we can do to promote equality for people of diverse backgrounds.
